ALL PI's**IEG PI NOTICE**No. 11-81**TITLE/SIGNIFICANCE:**

Soviet firebases have been identified in Afghanistan at the Soviet Deployment Area at Kunduz

**COMMENT:** Each fire base contains a command tent and at least three 122 mm SP guns in revetted firing positions. The firing positions form an arc within the fire base and are interconnected by defensive trenching with personnel firing positions. From these firebases the SP guns can be used in an artillery support role or anti-personnel role.
